Please find below and/or attached an Office communication concerning this application or proceeding.

Application No. Applicant(s) BAKER ET AL. 09/478.467 Advisory Action **Art Unit Examiner** 2686 Charles Appiah --The MAILING DATE of this communication appears on the cover sheet with the correspondence address --THE REPLY FILED 19 November 2003 FAILS TO PLACE THIS APPLICATION IN CONDITION FOR ALLOWANCE. Therefore, further action by the applicant is required to avoid abandonment of this application. A proper reply to a final rejection under 37 CFR 1.113 may only be either: (1) a timely filed amendment which places the application in condition for allowance; (2) a timely filed Notice of Appeal (with appeal fee); or (3) a timely filed Request for Continued Examination (RCE) in compliance with 37 CFR 1.114. PERIOD FOR REPLY [check either a) or b)] a) \square The period for reply expires $\underline{3}$ months from the mailing date of the final rejection. b) The period for reply expires on: (1) the mailing date of this Advisory Action, or (2) the date set forth in the final rejection, whichever is later. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of the final rejection. ONLY CHECK THIS BOX WHEN THE FIRST REPLY WAS FILED WITHIN TWO MONTHS OF THE FINAL REJECTION. See MPEP Extensions of time may be obtained under 37 CFR 1.136(a). The date on which the petition under 37 CFR 1.136(a) and the appropriate extension fee have been filed is the date for purposes of determining the period of extension and the corresponding amount of the fee. The appropriate extension fee under 37 CFR 1.17(a) is calculated from: (1) the expiration date of the shortened statutory period for reply originally set in the final Office action; or (2) as set forth in (b) above, if checked. Any reply received by the Office later than three months after the mailing date of the final rejection, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b). 1. A Notice of Appeal was filed on ____. Appellant's Brief must be filed within the period set forth in 37 CFR 1.192(a), or any extension thereof (37 CFR 1.191(d)), to avoid dismissal of the appeal. 2. The proposed amendment(s) will not be entered because: (a) they raise new issues that would require further consideration and/or search (see NOTE below); (b) they raise the issue of new matter (see Note below); (c) they are not deemed to place the application in better form for appeal by materially reducing or simplifying the issues for appeal; and/or (d) they present additional claims without canceling a corresponding number of finally rejected claims. NOTE: 3. Applicant's reply has overcome the following rejection(s): 4. Newly proposed or amended claim(s) would be allowable if submitted in a separate, timely filed amendment canceling the non-allowable claim(s). 5. The a) affidavit, b) exhibit, or c) request for reconsideration has been considered but does NOT place the application in condition for allowance because: See Continuation Sheet. 6. The affidavit or exhibit will NOT be considered because it is not directed SOLELY to issues which were newly raised by the Examiner in the final rejection. 7. For purposes of Appeal, the proposed amendment(s) a) will not be entered or b) will be entered and an explanation of how the new or amended claims would be rejected is provided below or appended. The status of the claim(s) is (or will be) as follows: Claim(s) allowed: None.

10. Other: ___

Claim(s) objected to: <u>None</u>. Claim(s) rejected: <u>13-29</u>.

Claim(s) withdrawn from consideration:

CHARLES APPIAH
PRIMARY EXAMINER

8. The drawing correction filed on is a) approved or b) disapproved by the Examiner.

9. Note the attached Information Disclosure Statement(s)(PTO-1449) Paper No(s).

Continuation of 5. does NOT place the application in condition for allowance because: the rejections as set forth in the Final Oction Action still meets the limitations of Applicants' invention as claimed.

In regard to Applicants' assertion that control information is concurrently transmitted with the "Packet Immediate Assignment" (not "Intermediate Assignment" as argued by Applicants'), examiner respectfully disagrees and maintains that the limitation of "subsequent to a reception of the acknowledgment by the seconday station, control information is initially transmitted on an uplink control channel and a downlink control channel between the primary station and said secondary station", is met by steps 3-3 and 3-4 of Mustajarvi (see Fig. 3), which constitute the transmission of control information on an uplink channel and a downlink channel subsequent to the reception of the acknowledgment by the secondary station. Examiner is at a loss as to how Applicants' is interpreting Mustajarvi to read control information being transmitted concurrently with the Acknowledgment in the form of the Immediate Assignment. Examiner therefore maintains that, contrary to Applicants' assertion, Mustajarvi does not teach away from any transmission of control information subsequent to a reception of an acknowledgment by the secondary station and that Mustajarvi as applied meets the limitations of the invention as claimed and the rejections using Mustajarvi are proper and maintained.
